2022 AMPO Planning Tools & Training Symposium Health and Safety Protocols

At the 2022 AMPO Planning Tools & Training Symposium, your health and safety is our top priority. AMPO is committed to providing a safe and inclusive environment for all event participants. To prevent the spread of COVID-19 and reduce the potential risk of exposure to all attendees, we have implemented the following Protocols.

We are asking all attendees to accept and acknowledge, and fully comply with all health and safety protocols outlined in this Health and Safety Acknowledgement Form. By registering for the symposium, you are agreeing to follow these COVID-19 protocols as a condition of your participation, attesting to:

- Vaccination by at least one approved vaccine or
- Mask requirement for unvaccinated attendees
- Suggested mask requirement for vaccinated attendees
- Completing self-health assessment every day before attending the symposium
- If not feeling well or have had exposure to someone who has tested positive will not attend the symposium
- Follow sanitization and cleaning procedures

AMPO is working closely with the Riverside Hotel to maintain a robust operational plan designed to maximize the health and safety of everyone. Please do not enter the 2022 AMPO Planning Tools & Training Symposium if you cannot confirm all the above criteria. If at any point during your time at the symposium you do not meet all the above criteria, or you test positive for COVID-19, please notify AMPO staff immediately, and you may be required to isolate, relocate, or be asked to leave at your own expense.

Face Masks

Face masks will be required for unvaccinated attendees. By not wearing an approved face covering, attendees certify that they are fully vaccinated and that other guests in the area can rely on that as a truthful statement. Based on the CDC Guidelines, the CDC suggests that fully vaccinated individuals consider wearing a mask in public indoor settings or individuals may choose to continue using face coverings based on their personal preference.
Hand Sanitizing

AMPO is working closely with the Riverside Hotel to implement cleaning and sanitization standards that meet or exceed the recommendations of the CDC. It is the responsibility of everyone to maintain personal hygiene, including washing your hands frequently.

Social Distancing

AMPO is working with the Riverside Hotel to confirm the layout with capacity management and physical distancing in mind. Face Masks will be available for any meetings where appropriate social distancing practices cannot be maintained and in common areas. Operational adjustments may occur throughout the event.

Post Conference

Based on current contact tracing advice from many health authorities, if you test positive for COVID-19 up to 14 days after returning home, please contact AMPO staff to advise them.

Please note: The guidelines in this document are based on information currently available regarding the behavior and characteristics of the COVID-19 virus, public health information and local or state guidelines with respect to large gatherings in any particular community.
